

Creative Director: Jane Zhang

Designer: Erin Lee

- Feel free to make a cleaner, modern web page design as the base for the site, then integrate elements of Minesweeper's interactive component (making the entire site a Minesweeper mimic might not give enough to work with)
- Mockup 1 - Windows background is hilarious, feels intuitive
 - Font weight/size could probably increase a bit for legibility
- Mockup 2 is a really fun concept, but might be hard to make it intuitive
- Mockup 3 is a good compromise between the Minesweeper "aesthetic" and a more modernized web page design
- Overall mockups look great, you can decide how much Minesweeper to actually include in the site — I trust you to find a balance that works :))
